

COMPANY X SUSTAINABILITY / ESG STATEMENT

The PLANET System®, developed in conjunction with The Sustainable Business Book, is designed to help businesses self-reflect on their current Sustainability/ESG status and move from knee-jerk promises to tangible change and action. As a company, we are currently working through the six stages: Panic, Learn, Agree, Navigate, Enact and Tell.

Our self-audit covering E (environmental), S (social) and G (governance) highlighted that we are doing pretty well in the areas of [Environmental Scope 1+2 understanding + action] and [Employee stewardship], and we are proud of the following initiatives:

- [Initiative A]
- [Initiative B]
- [Initiative C]

However, we have a lot of work still to do, particularly in the areas of [Environmental Scope 3 understanding + action], [Customer engagement], and [Community engagement].

So we are now focused on achieving the following by (no later than) the end of 2024:

- [Initiative A]
- [Initiative B]
- [Initiative C]
- [Initiative D]
- [Initiative E]
- [Initiative F]

Our longer-term strategy also includes:

- [Initiative A]
- [Initiative B]
- [Initiative C]
- [Initiative D]
- [Initiative E]
- [Initiative F]

And it is our ambition to be [Accreditation Programme, i.e. B Corp] certified by [Date x].

Note: Add reason for choosing this certification route or routes.
